Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner contacted Mr Sun to inquire about references 3,671,888 and 4,438,895 cited on the PTO-1449 filed March 29,2004. The mentioned references have the wrong inventor name matched with the patent numbers. Additionally these references are not related to the subject matter of the applicant's invention. It appears that there may have been an error in entering the reference numbers. Mr Sun gave the examiner permission to simply delete both 3,671,888 and 4,438,895 from the PTO-1449 .
